

Features of the MEd Program

1. Multicultural Learning Environment

Torch Trinity is a truly multicultural and international community with international students from 26 countries studying currently in the English-language programs. Graduates of Torch Trinity are dispersed all over the world (50 countries as of 2013), serving the kingdom of God as teachers, administrators, leaders, professors, and pastors. The possibilities for networking are immense.

2. English Program

The MEd program at Torch Trinity is the only English MEd program in Korea. Torch Trinity is well known as the premier English-language graduate university and seminary in Korea. With an English-speaking student body of nearly 300, the community of international and Korean students is quite extraordinary and unique in Korea.

3. ACSI Professional Teacher Certificate

Torch Trinity is a Higher Education Approved Partner with Association of Christian Schools International (ACSI) since August 4, 2014. Graduates will receive the Professional Teacher Certificate of ACSI, recognized by ACSI member schools (nearly 24,000 schools as of 2014) and Christian schools all over the world. Graduates wanting to go to the mission field after getting the degree will find the certificate invaluable.

4. Opportunity for Practical Field Education

In cooperation with the ACSI, Torch Trinity provides opportunities to go into the field to receive practical field education. Students will observe and learn from teaching in practice, and they will also have the opportunity to put into practice what they learn in the classroom.

5. Classes Offered in the Evenings and Saturdays

Students engaged in a full-time career may also pursue the MEd degree without schedule conflicts. Students who choose to study full-time may use their days to pursue internships, research, or otherwise further to develop their education and ministry.

6. Part-time Study for Expat Students

Expats who do not require a student visa may register either as full-time or as part-time students. Part-time students may complete the program at their own pace.

7. Qualified Faculty

All Torch Trinity faculty are required by Korean educational law to hold accredited doctorates in their respective fields. All MEd faculty members are qualified with either Ph.D. or Ed.D. degrees.

8. Strategically Located in the Heart of Seoul

Torch Trinity is conveniently located in the heart of Seoul in Yangjae, near Gangnam, and easily accessible by public transportation. The location of the campus is another significant advantage for students.
