Proposed thesis title, rough outline, and initial bibliography: (attach pages)

The faculty has established the following procedures for students who wish to begin work on their theses. When the process is completed, return this form to the office. The students should make copies of every step completed.

1. Write the proposed title and subject of your thesis in a complete sentence that details what you are going to do.
2. Once the Thesis Committee has approved your thesis title and subject and assigned your advisor and readers, write out the proposed subject with all of its subproblems, hypotheses, delimitations, definitions of terms, assumptions, and the importance of the study. Include the availability of resources for your research. This process should be completed as soon as possible. (Attach the document to this application)
